FOREWORD

The **GENERAL AVIATION STATISTICAL DATABOOK** is a useful tool for those examining our industry. In order to provide the most current statistics, the General Aviation Manufacturers Association (GAMA) publishes the **DATABOOK** immediately following the release of the FAA's annual *General Aviation and Air Taxi Activity and Avionics Survey* and *Aviation Forecasts* publications.

GENERAL AVIATION MANUFACTURERS ASSOCIATION

GAMA is a national trade association proudly representing 53 American manufacturers of fixed-wing general aviation aircraft (up to 19 seats), engines, avionics, and component parts. GAMA member companies also operate aircraft fleets, airport fixed-based operations, pilot schools and training facilities across the nation.

Headquartered in Washington, DC, GAMA represents the interests of its members before the United States Congress, the Department of Transportation, the Federal Aviation Administration, and other federal and state government agencies. It also maintains close working relationships with other associations representing various segments of the aviation community. Through its public information and education programs, GAMA promotes better understanding of aviation and the important role General Aviation plays in the national air transportation system.

We hope you will keep your **DATABOOK** handy as a quick reference for all your questions about General Aviation.

For more information on General Aviation, chartering or buying an aircraft, learning to fly, or joining one of the many aviation organizations serving the community, call or write the GAMA communications office or visit our Web Site at www.generalaviation.org.

TABLE OF CONTENTS

	PAGE
General Aviation Aircraft Shipments	3
Factory shipments and billings, 1946-1996	4
Graph of shipments and billings, 1972-1996	5
Factory shipments by aircraft type, 1962-1996	6
Estimated value of shipments by aircraft type, 1975-1996	6
Factory shipments by year and quarter, 1962-1996	7
U.S. civil aircraft imports from the world, 1992-1996	7
Factory shipments exported, 1965-1996	8
Exports by type of aircraft, 1972-1995	8
 General Aviation Fleet and Flight Activity*	 9
Fleet size by aircraft type and primary use, 1995	10
Hours flown by aircraft type and primary use, 1995	10
Age of the General Aviation fleet, 1996	11
Fleet size by FAA region and state, 1991-1995	11
U.S. registered certificated experimental aircraft by type, 1984-1994	12
Estimated flight hours by aircraft type, 1977-1995	13
Estimated flight hours per aircraft by type, 1991-1995	13
Summary of General Aviation operation statistics, 1986-1995	14
International fleet size by region, 1983-1994	14
International hours flown by region, 1983-1994	14
 U.S. Pilots	 15
Active pilot certificates and ratings, 1977-1996	16
Pilots and flight instructors by FAA region and state, 1996	17
Estimated active pilot certificates held by category and age group, 1996	18
Average age of active pilot by category, 1987-1996	18
Estimated active women pilot certificates by category, 1987-1996	18
Instrument ratings held among total pilot population, 1976-1996	19
Pilot certificates issued, 1965-1996	19
 Airports and Aeronautical Facilities	 20
Airports and landing facilities by state and region, 1996	21
Aeronautical and air traffic control facilities, number of, 1972-1996	22
 Forecasts and Other Information	 23
Forecast fleet size, by type, 1991-2007	24
Forecast pilot population, 1991-2007	24
Forecast flight hours, 1991-2008	25
Forecast General Aviation fuel usage, 1991-2008	25
Average fuel consumption by aircraft type, 1995	26
Aviation safety record and accident rates, 1974-1996	27
Total accidents in U.S. General Aviation, 1974-1996	27
 Index	 28
GAMA Member Companies	30

*1996 figures are not available from the FAA until Fall 1997.

SHIPMENTS

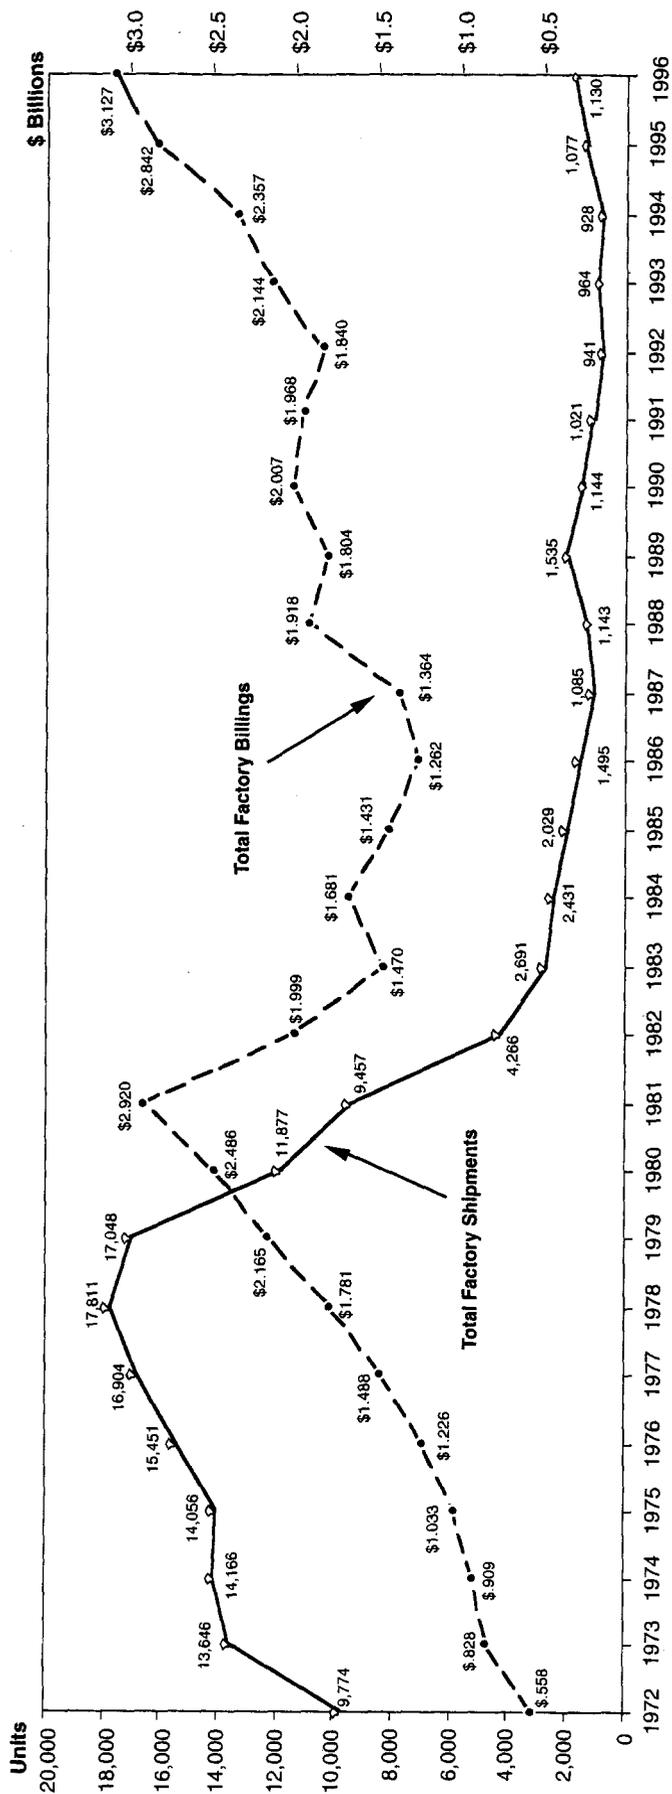

**Annual Shipments of New U.S. Manufactured General Aviation Aircraft By Units Shipped,

¹Glider and Lighter-Than-Air pilots are not required to have a medical examination; however, the totals above represent pilots who received a medical examination within the last 25 months.

²Lighter-Than-Air type ratings are no longer being issued.

³Not included in the total.

⁴Special ratings shown on pilot certificates; does not indicate additional certificates.

⁵Numbers represent all certificates on record. No medical examination required.

⁶N/A=Not available. Recreational certificate first issued in 1990.

¹Category of medical certificate unknown.

²Includes pilots with an airplane-only certificate. Also includes those with an airplane and a helicopter and/or glider certificate.

³Includes helicopter, glider, and recreational.

⁴Not included in total.

⁵Includes Outside U.S.

⁶Military personnel holding civilian certificates stationed in foreign country.

⁷Outside U.S. includes areas of the U.S. outside of the 50 states and foreign countries.

¹Category of certificate unknown.

Source: FAA

²Includes pilots with an airplane only certificate. Also includes those with an airplane and a helicopter and/or glider certificate.

Prior to 1995, these pilots were categorized as private, commercial, or airline transport, based on their airplane certificate. In 1995 and after, they are categorized based on their highest certificate.

³Glider and Lighter-Than-Air pilots are not required to have a medical examination; however, the totals above represent pilots who received a medical examination within the last 25 months.

⁴Lighter-Than-Air type ratings are no longer being issued. ⁵Not included in total.

⁶Numbers represent all certificates on record. No medical examination required.

⁷1994 counts based on medical certificates issued 27 or fewer months ago. All other years based on medical certificates issued 25 or fewer months ago.

⁸Beginning in 1995, includes nonpilots who were excluded in prior years because of incomplete addresses and/or a request to be excluded from any mailing list. N/A=Not available. Recreational certificate first issued in 1990.
